WORK

Senior Frontend Developer at VML

2 Years | 2016 - present

At VML, I head up a code team which is part of a end to end financial technology centric team. My role is to create responsive, accessible, and standards compliant front-end code. I also create front-end architecture and define technological requirements. I am a manager at VML.

Frontend Developer & Designer at DSTV DM

2 Years | 2014 - 2016

I created responsive and standards compliant front-end code for web and apps at this large corporate in Johannesburg. Working within multiple agile teams, we created and maintained digital products, primarily of which was a video on demand service.

Frontend Developer at Weekday Heroes

1 Year | 2013 - 2014

In my role here I built custom themes for WordPress as well as configured and modified purchased themes. This was of course accompanied by constant maintenance on a wide range of websites too.

Multimedia Designer at Regenesys

1 Year | 2012 - 2013

My responsibilities evolved from creating artwork and digital banners, to shooting, editing and producing educational and promotional videos as well as marketing microsites.

Actionscript 3.0 and Flash Tutor at UJ

1 Year | 2011 - 2012

EDUCATION

Bachelor of Technology

2012 - 2013

Obtained for Multimedia Design from the University of Johannesburg
Graduated Cum Laude

National Diploma

2009 - 2012

Obtained for Multimedia Design from the University of Johannesburg

Certified in Design for Persuasion, Emotion and Trust

2015
